CONDITION OF CAPT. MCCATHRAN

Was Arranging Funeral of Friend When Stricken.

The condition of Capt. Frank P. McCathran, in command of the fifth police precinct, who suffered a cerebral hemorrhage while attending the funeral of a friend yesterday, was slightly improved this morning. At the time he was taken ill he was on his way to the home of the late Samuel A. Wilson, a retired policeman, whose death occurred last Tuesday afternoon at 221 8th street southeast.

Capt. McCathran and Mr. Wilson had been personal friends for many years and during the last illness of the latter he expressed a desire to have the former take charge of his funeral. It was for that purpose that the captain was on his way to the 8th street home yesterday.

Mr. Wilson was a native of Ireland, where he was born in 1816 of September, 1855. At the age of twenty years he was naturalized in Chicago. He came to this city later and received an appointment as a member of the police force after he had been employed at the city as a watchman. Most of his police duty was performed in the western section of the city. When he became too old for active street duty he was assigned with the humane society in charge of the work of looking after children, and later he was detailed at the house of detention.

During the time he was connected with the police department Mr. Wilson gained the respect and confidence of a host of substantial business men and others. He was never known to neglect his duty and his ways were always expressed of great confidence in him. The remains will be interred in Congressional cemetery.

Dr. White took the guests by surprise when he rendered a baritone solo. Mr. W. H. Watson contributed a trombone solo, and was followed by Mr. James A. O'Shea, president of the Capital City League, who recited the poem "When the Mighty Caesar Struck Out."

IRISH HISTORY.
Local Hibernians Desire It Taught in Parochial Schools.
At a meeting of the state board of the Ancient Order of Hibernians of the District of Columbia last Tuesday evening State President Francis P. Sheehy presided. Among the matters discussed was a proposition to introduce Irish history in the parochial schools of Washington and the archdiocese of Baltimore.

A committee was appointed to co-operate with a similar committee in Baltimore in presenting the matter to Cardinal Gibbons. The local committee consists of Francis P. Sheehy, P. J. Halligan, and M. E. Buckley.

It is declared that in nearly all of the historical text books in the Catholic parochial schools there are inaccuracies that work to the disadvantage of the Irish race and the development of the Irish curriculum in that regard.

At a meeting of the District Library Association held last evening in the children's room of the public library, Messrs. Henry B. Evans of the bureau of education and Claude B. Guitard of the Library of Congress were the principal speakers. Mr. Evans spoke on "The History of the Library of the Bureau of Education." Rule Issued Against Executor of an Estate.
Justice Gould in Probate Court today cited George R. Repetti, executor of the estate of the late Owen Donnelly, to show cause Friday, December 7 next, why he should not be removed from the office of executor.

The order is predicated on a petition of Mary A. Donnelly, the widow of Owen Donnelly, who complains that Mr. Repetti misappropriated the value of her husband's interest in the firm of Donnelly & Jennings and secured the court's permission to sell that interest for \$28.44. Mrs. Donnelly declares that no account was taken of the good will of the business, which she and the deceased owned jointly.

Mrs. Donnelly also charges that Mr. Repetti has failed to file inventories and accounts, as required by law. Attorney H. Winslow Wheatley represents Mrs. Donnelly.

To Protect River Lighthouse.

The United States lighthouse authorities have determined, as a matter of protection to the lighthouse at Smith's Point, on the Virginia side of the mouth of the Potomac river, to have the riprap about the base of the light renewed. Bids for the work were opened several days ago in the office of the lighthouse engineer for this district at Baltimore. Among the bidders were Smith Bros. of this city, who propose to do the work, it is stated, with broken stone taken from the quarries above Georgetown. A large quantity of stone will be used in the work, and it will be so placed about the base of the light structure as to protect it from the drifting ice, which comes out of the Potomac in large masses after a heavy freeze. These ice masses might seriously endanger the safety of the light, as they have done on other points in the Potomac and on Chesapeake bay. The work about the Smith's Point light will be done under the direction of the United States lighthouse engineers.
